

DODGE CITY MIDDLE SCHOOL

BUILDING LEADERSHIP TEAM

December 2, 2014

Room 307 (3:30 P.M.)

BUILDING IPAD DISCUSSION AND ITEMS FOR CONSENSUS

- [iPad Work Order Form \(Teachers Complete for Students\)](#)
- School Wide App Form with Reviewable Data Base
 - **Suggestion:** School-wide Google link will be provided for all teachers to record and view approved apps. (List would be stored for teacher to review and check to see if a teacher actually okayed the app to be downloaded on the student iPad.)
 - **Suggestion:** Apps could be recorded and discussed during team curriculum day.
- **Review of Mobile Application Practices**
 - **Suggestion:** Headphones will be distributed to classrooms and should be used by students. If students do not want to use the headphones, they can purchase their own ear buds.
 - **Suggestion:** Universal login for all applications. Password and g-mail address.
- **Who Will Teach Literacy (IT Student Projects)**
 - **Recommendation:** Ethics for proper use of technology must be taught.
 - **Recommendation:** All teachers must encourage students to value the iPad as a learning tool.
 - **Suggestion:** It was suggested that the IT students develop tools for teaching literacy to their peers.
- **iPad Building Level Expectations**
 - Review of Building Level Guidelines for iPad Usage. (See Handout)
 - **Suggestion:** We need to incorporate team expectations into guiding practices.
 - **Recommendation:** It was determined that we need consistent expectations for all the building.
 - **Suggestion:** iPad Expectations/Guidelines will be placed in the sub folders so that subs are aware of student expectations for the iPads.
- **BLT Discussion Items Procedures for Misuse (Will be Determined at Next BLT)**
 - **Recommendation:** Consequence should not be the tool, but what the student has done with the tool.
 - Suggestions were to use the plan of three strikes you're out. Principal would see the student on the third strike.
 - **Suggestion:** Parents should be called when a student misuses their iPad.
 - **Suggestion:** List of those students who chronically misuse their iPads would be kept.
 - **Suggestion:** Change the student pass code so that only their teachers and tech have the code.
 - **Consideration:** The Explorer team is having a hard time when iPads are taken from students. Loss of instruction time when the student has to go get their iPad for the class period.
- **REVIEW OF STUDENT GROWTH MEASURES**
 - Suggestions on Growth Measures and Artifacts Awareness
