GRADING RUBRIC
Do your grades clearly describe the worth, merit, or value of the work accomplished?
Do individual grades improve the students capacity to identify competencies in specific skills that enhances an a students ability for self-evaluation with respect to work submitted?
Do your grading practices stimulate and support quality work from students?
Do you use both summative and formative assessments to measure student progress?
How much of a student's grade is a result of academic performance?

Mentors will be responsible in helping you complete the grading and assessment rubric during the first week of school. Additional support can be obtained from your mentor for setting up grades in Skyward.
