## EXITO After School Program

The EXITO After School Program is designed for secondary students in grades 6-12 at Dodge City Middle School, Comanche Middle School, and Dodge City High School. Students will engage in enrichment opportunities, homework assistance, skill building activities, language acquisition, and career path options. From these extended learning opportunities we expect our students to increase their achievement scores in reading and math, discover career interests and opportunities, and build relationships with other students and staff.

## Opportunities

### Tutoring

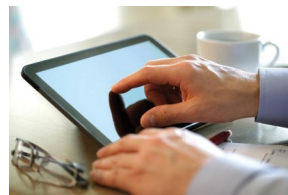

Teachers are available to help with specific skill building needs in reading, writing, and math, as well as language acquisition

### Homework Help

Teachers will help students complete any assignments they are missing as well as work on study skills.

### Enrichment/ STEM

Students will engage in STEM (Science, Technology, Engineering, Math) and other enrichment activities. They will have the opportunity to hear about career path and guidance for future scholarly needs.

**Transportation is available!**  
Students can ride the bus from the school they attend to the school located in their neighborhood. Transportation forms must be filled out prior to admission on the bus.
