

## **Kansas Assessment Program Item Specifications**

The Kansas College and Career Ready Standards for English Language Arts is a set of specific, rigorous expectations that build students' skills across grades in reading and analyzing a variety of complex texts, writing with clarity for different purposes, and presenting and evaluating ideas and evidence. The Standards are designed to establish a focused, deep understanding of language, and to develop a logical progression of literacy, fluency, analysis, and application, moving students toward college and career readiness.

The Kansas College and Career Ready Standards for English Language Arts are organized into Content Domains and Anchor Standards, which are the same across all grades, and grade-specific Standards indicated by a number. The numbered Standards are the most specific level and define what students should understand and be able to do. A common criticism of academic achievement tests is that they focus on the level of the Standard, which in many cases is a very discrete skill or aspect of understanding. Parsing English Language Arts out in this way for assessment may not be the most accurate model for assessing student achievement, as this is usually neither how students learn nor how teachers teach. For example, as students interact with a novel, they use skills related to multiple Standards. They consider the author's use of vocabulary and figurative language in addition to analyzing the theme.

Test development for the Kansas Summative Assessment is instead focusing items on broader skills and strategies rather than individual Standards and discrete skills—a method more reflective of both the holistic approaches teachers use to teach and the ways students learn. This document, the Item Specifications, defines Assessment Targets, or just Targets. Targets are drawn from one or more of the numbered Standards and are accompanied by evidence statements. Evidence statements are used to guide item writers in creating test questions that give students the opportunity to demonstrate mastery of that Target.

For the purposes of reporting meaningful results, the Targets are organized into larger Claims about student learning and mastery. There are three Claims in English Language Arts that will be assessed by the Kansas Summative Assessment.

Approximately 60-65% of the test will be from Claim 1. Claim 1, Reading, is divided approximately equally between literary texts from different genres and informational texts that cover a broad range of academic and non-academic topics. Claim 2, Writing, will be approximately 25-30% of the machine-scored assessment. While student composition will not be included in test scores this year, students will be required to revise, organize, and edit examples of writing, among other tasks. Claim 3, Listening, will not be assessed this year, but in the future will comprise approximately 10-15% of the test. For the 2014-2015 school year, approximately 65% of the test will be from Claim 1 and approximately 35% of the test will be from Claim 2.

Although the numbered Standards are listed with the Targets and Claims, the test blueprint cannot be derived by counting up the number of times a particular Standard is listed. There are cases where part of a Standard is in one Target, and another part of the Standard is in

another Target. While not all Targets will be equally emphasized in the test, all of the content described by the Standards is important. Some of the content in a Target may also be reflected in another Target, or the content in a Target in the current grade may be a critical foundation skill for success in subsequent grades. Thus, attempts to pattern instruction on the perceived or actual numbers of items in a test may not adequately serve students' needs.

### How to Read This Document

This document is organized by grade. Within each grade, the Claim statement is introduced, followed by each Target. The Target descriptions include evidence statements and the corresponding Kansas Standards. The outline below shows the organization of the Item Specifications. *Italics* are used to further describe the content of each part of the test.

**Claim #: Short Title** *indicates the main topic of the Claim. Explanatory text describes in greater detail the expectation of what students will have mastered to make this Claim about student learning.*

**Claim #/Targets #-# – Subset of Targets.** *In Claim 1, Targets are divided between Reading Literary Text and Reading Informational Text. Although many of the skills are similar, different text types have different features which lead to different Targets and required evidence. For other Claims, not all Targets will be included in the machine-scorable portion of the test, or in the summative assessment. For example, Claim 3, Targets 1-3, address Speaking, which cannot currently be reliably assessed in a machine-scorable, objective fashion. Many of the Claim 2 Targets address text composition, which is not included in the machine-scorable portion of the assessment.*
